

Consortium Minutes
November 9, 2007

Welcome by – Mark Riding welcomed everyone. The topics this year have followed a needs assessment taken in St. George last year. We have done the coaching one last time. This time is on math.

Follow browse-by: Mark went through the items in the folder quickly. Bruce Schroeder talked about RFP process for grants. From needs assessment there are not enough qualified teachers throughout the state. There are 10-12 grants available to address this problem. There are also 3-5 grants available for access to the general curriculum areas. Letter of intent are due Dec 1, 2007.

Michael Herbert introduced the November issue of the Utah Special Educator. The focus is on RTI again this issue. He showed the magnet at the back of the issue and encouraged everyone to display.

Julie Mootz introduced our speaker Lynn Fuchs, professor of Special Education at Vanderbilt University. Most cited researcher in the area of

Lynn Fuchs – “The Prevention and Identification of a Math Disability Using RTI” –
Four parts:

1. RTI Framework
2. Screening & progress monitoring with RTI
3. First grade secondary tutoring in math
4. Third grade primary prevention & secondary tutoring
